Us**List of Lawyers involved in litigation with Nicherie's and Fees**

The information provided herein is believed to be accurate. The attorneys identified below have a capacity in the massive litigation relating to the Nicheries and their many entities either as representatives of Nicheries or their corporations or representing the interests of victims.

The fact that an attorney is listed on this schedule as representing the Nicheries or their interests that the attorney was an active participant in the Nicherie's activities, or considered to be conspiring, have only had a limited representation. Several attorneys withdrew when the extent of the Nicherie purpose became clear.
